

SDA has exciting news to share! We are moving our headquarters to St. Paul, MN and will conduct business out of our new location on Tuesday, May 31.

**Our new address is as follows: System Design Advantage, LLC
3711 Kennebec Drive
Eagan, MN 55122-1084**

We will continue to provide new and refurbished part sales, authorized OEM depot repair services and high quality customer service support out of our new location. Throughout this move, SDA is enhancing our depot repair technology to include more authorized OEM repairs, ATM repairs and refurbishment of product for manufacturers that include Diebold and Wincor and also parts and repairs on IBM, NCR and Fujitsu POS product lines.

SDA's commitment to our customers over the years has recently included the addition of a 150,000 sq. ft. warehouse/distribution center, depot repairs and logistics outsourcing in Columbus, OH. Having multiple locations provides our customers business continuity, parts distribution services and depot repair process redundancy.

Next year, SDA will be celebrating 20 years in servicing this industry and continuing to lead in the advancement of lowering total costs and providing outstanding service with our sales and support team, ISO 9001:2008 certification and customer-centric programs including:

- 2004 – Inventory Asset Management Program (IAM)
- 2006 – 75 forward stocking locations nationally and additional OEM authorized MVS depot repair services
- 2009 – Outsourcing of logistics – return/reverse logistics – finished goods distribution – integrated depot repair services and in warranty management services.

SDA also continues to provide authorized service on HP, IBM, Lexmark, Lenovo, Xerox, Acer, Okidata and many others.

Get the SDA advantage with the quality you expect and more!
